ASME Conferences & Toolbox

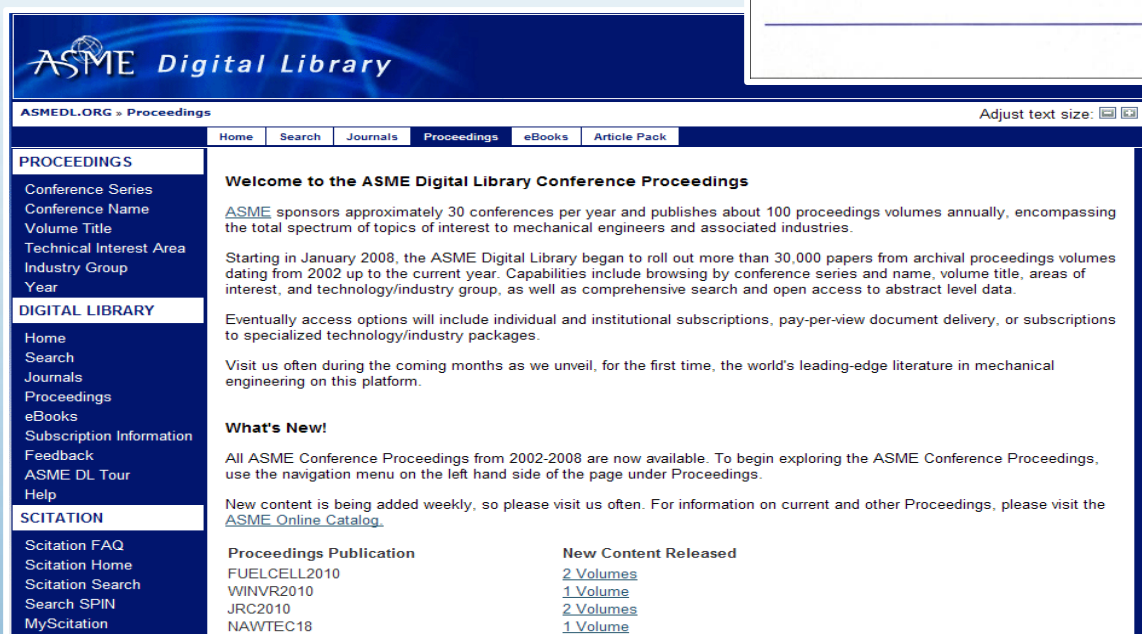

ASME 2011 Conferences

- ASME/JSME 8th Thermal Engineering Joint Conference
March 13 - 17, 2011 Honolulu, Hawaii
- ASME/ASCE/IEEE 2011 JOINT RAIL CONFERENCE
March 16-18, 2011 Pueblo, Colorado
- 19th International Conference on Nuclear Engineering
May 16 - 19, 2011 Makuhari, Japan
- NAWTEC 19th Annual North American Waste-to-Energy Conference

Welcome to the ASME Digital Library Conference Proceedings

ASME sponsors approximately 30 conferences per year and publishes about 100 proceedings volumes annually, encompassing the total spectrum of topics of interest to mechanical engineers and associated industries.

Starting in January 2008, the ASME Digital Library began to roll out more than 30,000 papers from archival proceedings volumes dating from 2002 up to the current year. Capabilities include browsing by conference series and name, volume title, areas of interest, and technology/industry group, as well as comprehensive search and open access to abstract level data.

Eventually access options will include individual and institutional subscriptions, pay-per-view document delivery, or subscriptions to specialized technology/industry packages.

Visit us often during the coming months as we unveil, for the first time, the world's leading-edge literature in mechanical engineering on this platform.

What's New!

All ASME Conference Proceedings from 2002-2008 are now available. To begin exploring the ASME Conference Proceedings, use the navigation menu on the left hand side of the page under Proceedings.

New content is being added weekly, so please visit us often. For information on current and other Proceedings, please visit the [ASME Online Catalog](#).

THIS MONTH'S EXCLUSIVES

Study Measures Human-Induced Stresses on World's Fresh Water Supply — Human practices threaten the security of fresh water systems that supply nearly 80 percent of the world's population, according to a study by Rivers in Crisis. Read more.

Unwritten Laws Stay in Print — The recent series of three articles on "The Unwritten Laws of Engineering" is based on a book of the same title that is one of the most popular texts published by ASME Press. Read more.

White Paper Library

As an engineer or scientist, you may be dreaming up product ideas that you think have market value; yet, you may be concerned that you lack the training or skills to fully develop your idea. A paper from National Instruments.

The demand for stepping motors that have high efficiency and low losses has been increasing, although it had been previously focused on high torque. A paper from Oriental Motor.
