

PROGRAMS & ACTIVITIES

Programs & Activities (P&A)

A Board of the Knowledge & Community Sector that helps units by:

- Collecting & sharing successful Programs & Activities
- Identifying and sharing Best Practices
- Initiating new program development and implementation
- Providing guidance and support in meeting the training needs of K&C volunteer leaders.

P&A Resources

- Phil Carpentier, Vice-President, 2009-2012
- Marian Heller, ASME Staff Contact, HellerM@asme.org
- Case studies of best practices
- Webinars that generate revenue for sections
- ASME Speakers Bureau
- LTC Mentoring Program

Visit our Idea Mart Booth and pick up a brochure with details and URLs

Best Practices Committee

Rick Cowan, Chair

- Share knowledge, practices, & assets
- Leverage resources & integrate existing learning
- Increase collaboration within ASME communities
- Celebrate units' **Best Practices** with the Earl V. Fisher Award.

Identify > Characterize > Analyze > Validate > Disseminate

Local Programs Committee

Scott Burr, Chair

- Help Sections identify **Program & Activity** ideas that meet their situations and needs
- Coach Sections as they implement ideas
- Implement a **Webinar Strategy** so that any local program produced by a section can be watched live across the ASME
- Review K&C unit programs

Training Committee

Eduardo Barrientos, Chair

- Develop an online K&C Training Center
- Develop an annual training plan for K&C Unit Leaders, to provide:
 - Knowledge & skills for leadership roles
 - Delivery via in-person events, webinars, online, etc.
- Provide guidance and support to specific training initiatives as requested

New Business Development Committee

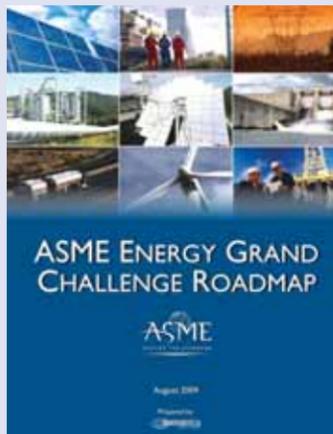

Jack Whitehead, Chair

- Defines global processes for organizing & executing successful events
 - Evaluate performance for continuous improvement
- Coming in 2011:
 - **Process models** for programs & activities:
 - Webinars
 - Energy Grand Challenge
 - Emerging Technologies

ASME Speakers Bureau

- Provides ASME units lecturers equipped to speak on relevant subjects of interest
- Helps ASME units to develop quality programming for a variety of events
- Visit our Idea Mart booth or website to apply to be a speaker

http://volunteer.asme.org/unit/Speakers_Bureau.cfm

Energy Grand Challenge

- The Energy Grand Challenge (EGC) Project Team will develop programs and activities for meaningful contributions to energy challenges facing our world.

More information at <http://strategy.asme.org>

Member Value Committee

- What do members need and value from their ASME membership?
- How can ASME enhance member values?
 - Young members – how to retain and energize them; how to engage them within ASME; what programs can be developed?
 - Older members – how to strengthen their Society involvement?
 - Examples – teleconferences; webinars
