

Student Sections Committee

http://www.asme.org/Governance/KnowledgeCommunity/Student_Sections_Committee.cfm

MISSION

- Advise the ASME K&C Operating Board on matters relating to student members and student sections.
- Act as a focal point for interaction between student members, student section advisors, senior members and staff of ASME .
- Coordinate student member activities at the district and international levels.
- Promote the professional development of student members as engineers and leaders in ASME and society.
- Promote active undergraduate and graduate student involvement within technical divisions.
- Disseminate information useful to the student membership of ASME.

MEMBERSHIP

- Each district has two student representatives and a senior representative. The senior representative is appointed by the District Leader to a 3-year term and should have experience with student activities. Student representatives are elected to two-year, staggered terms at each Student Professional Development Conference.

STUDENT DISTRICT OPERATING BOARD

- Members of the SSC are responsible for each of the Student District Operating Boards (SDOBs) which aid in enhancing communication between students and all levels of ASME. SDOBs work at the district level to carry out activities and promote best practices among student sections.

This ASME committee is one of the most exciting committees in the whole of ASME.
